

The UCS Group

The UCS Group offers complete transportation solutions to companies involved in the international distribution of consignments throughout the world.

UCS is one of the UK's fastest growing online courier and logistics specialists, providing clients with professional services for over 20 years.

We are committed to ►►

- Providing quality services.
- Offering flexible & reliable solutions.
- Listening to our customers and meeting their needs.
- Making international distribution a pleasant experience.
- Proactive service based on years of experience.

Environmental Commitment

At UCS we monitor our environmental impact to find ways to reduce our carbon footprint. That's why we:

- Partner with suppliers who share our concern for the environment.
- Minimise our energy consumption, waste and emissions.
- Use recyclable products where possible and comply with relevant environmental legislation.
- Continually monitoring our environmental impact.
- Integrate environmental aims into our processes and workplace.

Why use us?

UCS is able to find a delivery solution for any destination and any type of consignment.

UCS INTERNATIONAL

- **Express Services:**
Servicing over 230 countries worldwide, UCS offer some of the fastest transit times available for all manner of consignments.
- **UCS Deferred Services:**
We also recognise the importance of offering alternative services that assist with cost-reduction.
Not every consignment is time critical and our deferred services provide viable solutions.

We deliver WHATEVER - WHEREVER - WHENEVER!

Why use us? ▶▶

Whatever the city and no matter what country, tell us what important shipment you have and we will ensure delivery.

UK SERVICES

We offer nationwide express or deferred delivery solutions:

- Overnight
- Same day Dedicated
- Pallets

UCS STORAGE AND LOGISTICS

We offer professional “behind the scenes” services and support packages. Our customised reporting procedures and schedules give you more control over your business and goods.

- Managed Storage
- Pick and Pack from Store
- Available online reports
- Individual item auditing

HAWB logistics platform

We've developed a software package that will revolutionise the way in which you oversee your logistical and storage requirements.

HAWB gives you complete, customised control over everything from bookings and invoicing through to address entries and stock control, eliminating many of the problems that can arise from using rigid courier operating systems.

HAWB logistics platform

HAWB is able to take bookings directly from any company's back-end system.

- Any company running an ERP (Enterprise Resource Planning), Supply Chain Management System or an eCommerce Platform such as SAP, can book shipments directly into HAWB.
- The system is also capable of supporting multiple users in multiple offices, running everything through a central billing system.

UCS and the Community

At UCS we actively participate in programs that aim to uplift and enrich the community.

Whether it's community projects, fundraising events or charitable initiatives, the UCS team is always willing to support a worthy cause.

How to work with UCS

We develop systems to suit your unique transportation needs.

Our aim is to eliminate the stress and effort that people associate with transportation services.

We've set up an easy-to-use online quote request form where you can supply your company and shipment details.

If you want to drop us a line you can contact any one of our UCS operators.

Send a shipment

We are committed to a policy of continual development and improvement, both with the systems we operate and the levels of service we provide to our clientele

Our online quoting and shipment booking system enables you to find a fast and effective solution for any of your transportation requirements.

Track and Trace

Giving you the full whereabouts of your goods all the time.

Our on-site tracking application enables you to track any one of your shipments at any time from any place by simply entering your unique tracking code.

Aims for the future

Services: We are expanding and increasing our storage and hardware support services, currently operating in Paris, Vienna, Geneva, London, and Hong Kong.

Environment: The UCS Group is being audited for Environmental Standard accreditation ISO14001 and Business Standards ISO9001. Our future environmental aims also include building environmental partnerships to share services and reduce vehicles on the road.

Community: We are always looking for a worthy cause to support. The UCS Group will again be supporting the James Whale charity on a bike ride from London to Paris.

Technology: We are introducing a laser weight and measuring scanning unit that will provide transparency and increased traceability.

We also aim to:

- Improve the networking of our logistics platform.
- Speed up our delivery time through efficient partnerships.
- Provide customers with more competitive prices.
